

# Understanding Drugs

**LO:** To be able to identify and compose a definition of what drugs are. To be able to recognise different types of drugs.

**Bronze:** I can identify at least one type of drug.

**Silver:** I can identify a variety of drugs and understand how the types of drugs are different.

**Gold:** I can confidently provide explanations and identifications of different types of drugs as well as recognising that not all drugs are bad.

1. Write your own definition of what a drug is.

---

---

---

---

2. Using the internet, research the definition of what a drug is and write it below.

---

---

---

---

3. How are legal drugs used in modern British society?

---

---

---

---

There are 5 drug information files available. Pick 3 of them and then fill out the table below.

	Drug name 1	Drug name 2	Drug name 3
Three street names for this drug.			
What class is this drug?			
What punishments are given if you are caught in possession of this drug?			
How does this drug effect the body?			
What risks are associated with using this drug?
